On July 6, 1983, The Montana Power Company ("Applicant") filed with the Public Service Commission its verified Application, pursuant to Sections 69-3-501 through 69-3-507 of the Montana Code Annotated (MCA), seeking an order authorizing it to issue and sell not to exceed \$75,000,000 of First Mortgage Bonds no later than September 30, 1983.

The Application is supported by exhibits and data in accordance with the Commission practice and rules and regulations governing such guarantees by public utilities operating within the State of Montana.

The Application states that Applicant is a public utility, as defined in MCA §69-3-101, in that it furnishes electric and natural gas service in the State of Montana; that Applicant's principal executive office is at 40 East Broadway, Butte, Montana; and that Applicant is duly qualified to do business in the States of Montana, Wyoming and Idaho. For detailed information with respect to the general character of Applicant's business and the territory served by it, reference is made to Application.

The Application states that:

(1) The need for additional funds can be foreseen within the time limited in the Application, but the Applicant cannot determine at this time the most advantageous time for issuance of debt securities.

(2) Although the Applicant will have existing lines of long-term and short-term credit available, the Applicant believes that a long-term debt issue will provide additional needed funds to pay down current debt obligations as well as the ability to maintain an appropriate

debt/equity capitalization ratio.

(3) The Company is contemplating reducing the debt obligation under the Construction Trust in the event it is determined not to proceed with this financing vehicle, and will use the proceeds for that purpose and for other lawful corporate purposes recognized by MCA § 69-3-501.

(4) Expenses in connection with issuance of the securities applied for are estimated to be \$150,000.

The Application includes an opinion of counsel regarding the legality and the propriety of the proposed issuance.

Notice of the filing of the Application has been given by inclusion of notice thereof in the Commission Agenda for July 11, 1983.

Having fully considered the Application and all the data and records pertaining thereto on file with the Commission and being fully advised in the premises, the Commission makes the following:
